

Bureau of Land Management Eastern States

Cadastral Survey

We are the Secretary of the Interior's official surveyors, identifying and maintaining records of legal boundaries on the Federal lands in the East.

We conduct surveys and monument the boundaries of BLM and other Federal lands or rivers, and lands held in trust by the United States for Tribal Nations.

We provide quality surveys, products and services for a host of Federal Agencies, warranting the highest public confidence in the accuracy of Federal land boundaries.
